

## **Go Fishing at Pennyrile Forest State Resort Park**

Picturesque Pennyrile Forest State Resort Park is surrounded by Pennyrile State Forest in Christian and Caldwell counties. Within the park lies 47-acre Lake Pennyrile that offers anglers an opportunity for a relaxing get-away.

Anglers will find prime fishing for extremely abundant bluegill and redear sunfish, as well as largemouth bass. Fishing is best from April through June as spawning sunfish are easily targeted along the bank. Additional fish species include white crappie, channel catfish, longear sunfish, and warmouth. Channel catfish are stocked annually by the Kentucky Department of Fish and Wildlife.

Plan a fantastic weekend or holiday get-away at Pennyrile Lodge or one of 12 cottages that overlook the lake. No gasoline-powered boats are allowed on Lake Pennyrile; however, you may rent either a paddleboat or johnboat at the park.
